Star Children's Charity Offering Help

In October, **Star Children's Charity** (SCC) hosted an educational forum for community agencies and individuals located in and serving Collin County. SCC will provide financial support to various Collin County agencies whose mission is to serve the needs of children and families. These beneficiary recipients will vary from year to year and will be considered by application only. Star Children's Charity will award approximately \$1,000,000 annually to chosen agencies.

Representatives from Star Children's Charity will review the application process and beneficiary selection criteria at this forum. "We believe that all children should have hope for their future and receive assistance when they are in need. Funding agencies in Collin County that can provide this hope for our children brings the Star Children's Charity to life," says **Michelle Brennan-Hall**, co-founder of Star Children's Charity.

Linda Paulk, co-founder, adds: "Whether it's for basic life needs or medically, academically or educationally related needs, we want to help provide a foundation for the children of our community to compete globally. It is with this focus in mind that we endeavor to support the nonprofit organizations serving the children and families of Collin County."

For more information about the application process or how to be considered to be a beneficiary of Star Children's Charity, please contact Ronelle Ianace, 2008 Beneficiary Selection Chairman at beneficiaryselect@starchildrens.com.
